TWBSTL – Thin Swing Away Thoracic Lateral Hardware

TWBSTL-L

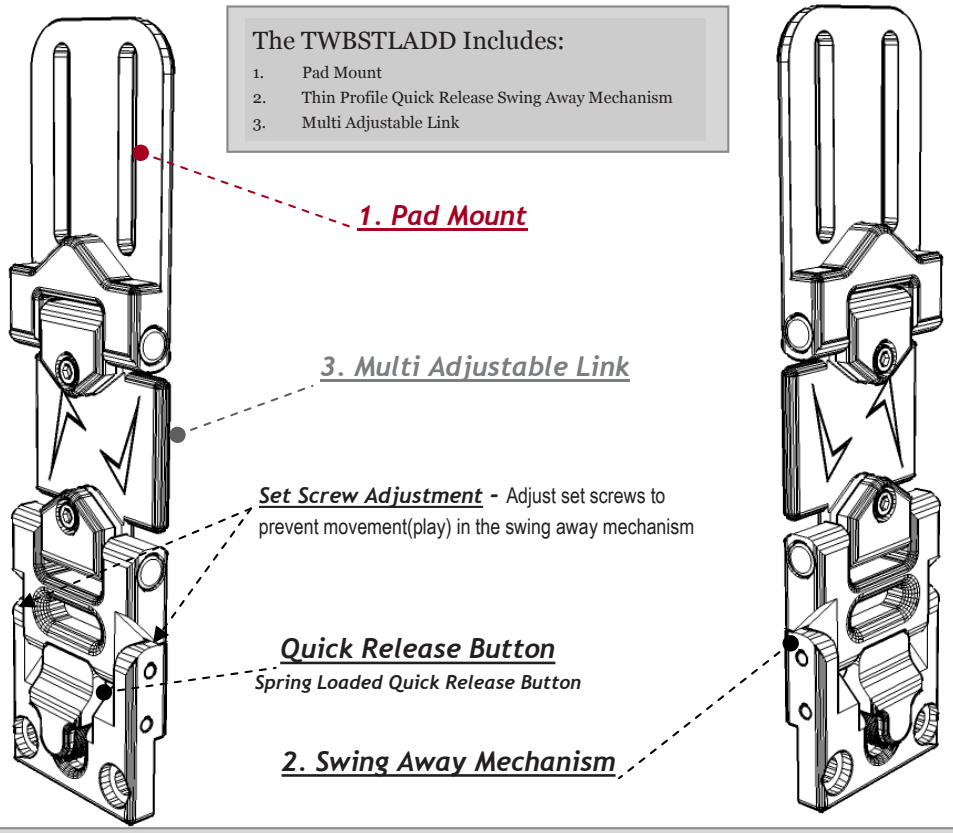
*Pad not included w/ part # TWBL

TWBSTL-R

Standard Configuration

The TWBSTLADD Includes:

1. Pad Mount
2. Thin Profile Quick Release Swing Away Mechanism
3. Multi Adjustable Link



TWBSTL

Lateral Thoracic Thin Standard Link Articulating Adjustable Swing Away Hardware (E1028)

The Worlds Best Thin Laterals are thin swing away thoracic lateral brackets that are designed with a thinner profile for mounting in areas where there isn't enough room for mounting the standard swing away lateral supports, they are multi-adjustable In order to achieve offsets or accommodate for cushion thickness. The standard configuration comes a non modular thin flip down bracket that has one multi adjustable link and pad mount.

Technical Data

1. 5/32 tool for 1/4– 20 flat head screws (Links). / tool for set screw adjustment.
2. 3/16 tool for 1/4—20 socket head screws (Mounting Hardware).

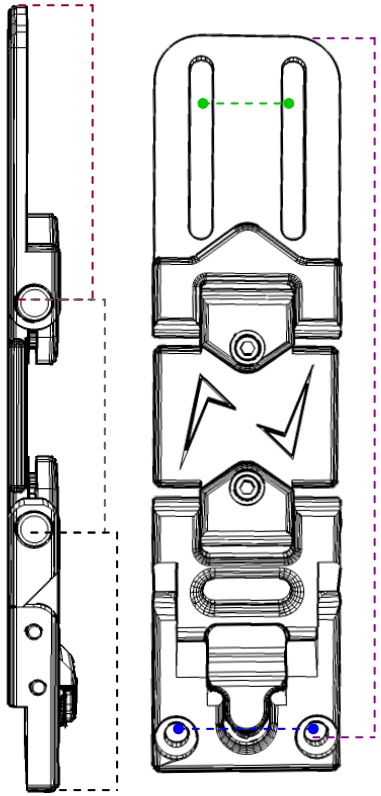
Selling Points

1. Push button quick-release swing-away mechanism to easily transfer client from chair.
2. Smooth finished edging on every piece.
3. Fully adjustable to accommodate the needs of almost any client.
4. Thin profile design in for mounting in areas with little room for mounting adductors.

Standard Configuration Dimensions

Front View

Side View



Use these standard dimensions to determine which configuration you will need. See back for alternate mounting hardware and additional parts

Pad Mount	3.5"
Link	1.5"
Swing Away Mechanism	2.5"
Pad Mount Slot Spacing	1"
Swing Away Mechanism Hole Spacing	1.5
Mounting Hardware to Pad Mount	7.5"

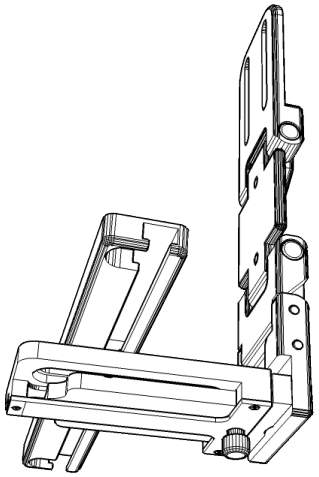
2GTR Track Nut	LTHW503
Standard Track Mount	LTHW515
All Season Bracket	LTHW504
Planar Mount	LTHW505
Formula Contour	LTHW-507

TWBSTL Modifications

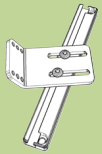
Example Configuration

TWBSTL

This example configurations is shown with an all season bracket mounted to a standard 7" track



Retrofitted Mounting Hardware

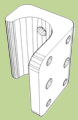


***Tru Comfort Back Mount* — LTHW508**

Can be used with the Quantum Tru-Comfort Back

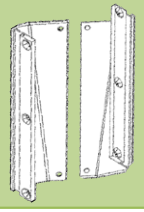
***Formula Contour Bracket* — LTHW507**

Can be used with the Invacare Formula Seating



***Pride Synergy Cane Clamp* — LTHW506**

Can be used with the Pride Synergy Seating

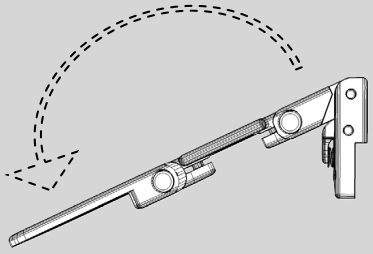


Permobil Corpus Tracks
***Left Side* — LTHW518**
***Right Side* — LTHW520**

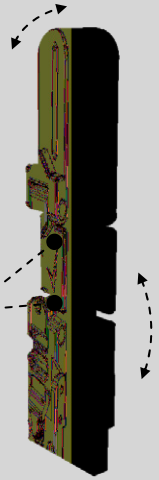
Can be used with the Permobil Corpus Seating

Swing Away Action

laterals can be swung away 125 degrees for transferring client from chair.



Adjustability



Adjustment Screws

Socket head screws can be loosened for angle adjustment.

Mounting Hardware

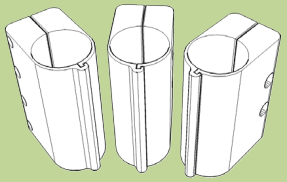
Different mounting hardware is available for different manufacturers chairs and other configurations

Cane Mount Clamps

***1"* — LTHW500**

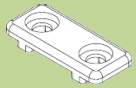
***3/4"* — LTHW501**

***7/8"* — LTHW502**

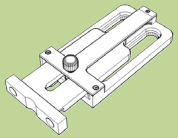


Track Mounts

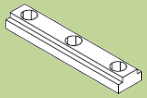
***2" Track* — SBHD234**
***3" Track* — SBHD235**
***6" Track* — SBHD-233**
***7" Track* — SBHD231**
***8" Track* — SBHD236**
***10"Track* — SBHD140**
***12"Track* — SBHD232**
***14"Track* — SBHD237**
***16"Track* — SBHD238**
***18" Track* — SBHD239**



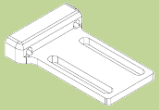
***Anti-Rotation Nut* — LHW136** Used for mounting hardware or pad mounting to prevent rotation in the slots.



***All Season Bracket* — LTHW504** Width adjustable planar mount



***2GTR Nut* — LTHW503** Can be used with the Invacare TDX system.



***Planar Mount* — LTHW505** Standard for mounting to flat backs
